Details

You must register to attend this event.

Attend this free inaugural Invader Raiders event which includes hiking and a beach clean up at Fort Clinch State Park.

We'll first learn how to identify the invasive species commonly found in the area and how to report them using the I've Got One app. Then we'll go for a hike to search for some invaders and end at the beach to clean up and look for a more recent beach invader, Beach Vitex.

All participants entrance fee to the park will be waived. Space is limited, please register.
